PAMPERING TO REFRESH,
RESTORE AND REPLENISH

Relax and rejuvenate in a unique spa setting. Our boutique spa is a luxurious five treatment room sanctuary away from your everyday cares and worries. We embrace a personalized approach in providing indulgences that **enliven the senses, soothe the body and replenish the spirit.**

Each spa service allows time to relax, reflect and revitalize. Within the serenity of our relaxation lounge and calming treatment rooms we offer soothing massages, signature facials, body wraps, manicures, pedicures and hair services.

We use only the finest botanical products providing outstanding results for every skin type. Our ecologically-balanced products utilize the most nourishing, natural ingredients our oceans and earth have to offer.

REUNION SIGNATURE ESCAPE

Our signature treatment combines a 50-minute custom massage which includes your choice of aromatherapy or our exotic oil, with a 25-minute warm oil scalp massage using warm oils to nourish scalp and hair. To enhance your experience, we also include a hand or foot treatment. The ultimate escape!

GOLFER'S MASSAGE

Perfect to loosen you up before or after a long day on the course. This massage utilizes deep tissue and relaxation techniques combined with aromatherapy infused T Spheres. These aroma infused rubber balls are used to help alleviate muscle and joint aches and pains. The therapist holds the T Spheres in their hands as they perform the massage rolling the balls around the shoulder blades, up the back of the neck, and triggering pressure points in the arms, hands, and feet. Leave ready for another round after receiving this stimulating massage.

CUSTOM MASSAGE

Relax away muscle tension with this customized massage. Choose any combination of our essential aromatherapy oils, firm pressure and warm stones. This is the ultimate massage for those who want to try a little bit of everything to help them relax and unwind.

DEEP TISSUE MUSCLE MASSAGE

Alleviate stress, ease aching muscles and revive the senses with this powerful, customized massage. Dynamic blends of essential oils are prescribed to target individual needs and reduce specific stress and muscle tension.

WARM STONE MASSAGE

We took our classic Swedish massage and made it the ultimate spa experience. Our therapist's healing touch combined with the therapeutic properties of warm, smooth basalt stones melts tension from your muscles and de-stress your mind. A relaxing experience that takes your mind to a whole other place.

REUNION MASSAGE

A relaxation massage using light to moderate pressure massage techniques to stimulate the body's own healing systems and calm the nerves. Choose from our selected essential aromatherapy oils designed to relieve chronic patterns of stress and to soothe and energize the mind and body or choose scent free and let the healing touch of the therapist do all the work.

REFLEXOLOGY

Restore a sense of balance by targeting pressure points on the feet that correspond to specific areas of the body. Our therapists stimulate reflex points on the soles of your feet with finger pressure to improve circulation and reduce fatigue.

PRENATAL

Moms-to-be need pampering during this special time. Massage therapy can soothe aches and rejuvenate your spirit. Start off with a light body brushing on the feet and legs to help promote circulation and lymphatic flow and continue with a gentle but stimulating full body massage. To finish this prenatal journey of relaxation, the therapist does light compressions on the feet using warm aromatic towels leaving mom feeling relaxed and rejuvenated. This treatment is safe for baby and mom during their second or third trimester.

JUST FOR COUPLES

The ultimate massage for two. Share your spa journey with that special someone with a side-by-side massage inside our private couple's massage suite.

STRETCH & RELAX

Loosen and lengthen your muscles with a simple assisted stretching routine. The therapist targets specific muscle groups to help stretch out your shoulders, lower back, and the front and back of your legs using rhythmic stretching techniques.

SHIRODHARA

This massage treatment works both the physical and subtle body. It brings balance to the life force prana, releasing toxins and providing complete relaxation. A warm oil is used for the marma (vital) point massage and chakra balancing to the entire body. Shirodhara also gives strength to the nervous system and helps to liberate toxins. This treatment releases tension and is excellent for people with chronic stress related problems. Having this treatment before or after your massage results in deep relaxation and stress relief.
